

NEW JERSEY ECONOMIC DEVELOPMENT AUTHORITY
Approved GrowNJ Projects Under NJ Economic Opportunity Act

As created by statute, the Grow New Jersey Assistance (Grow NJ) Program is available to businesses creating or retaining jobs in New Jersey and making a qualified capital investment at a qualified business facility in a qualified incentive area. Applications to the Grow NJ Program are evaluated to determine eligibility in accordance with P.L. 2013, c. 161 and as amended through the "Economic Opportunity Act of 2014, Part 3," P.L. 2014, c. 63, based on representations made by applicants to the Authority. Per N.J.S.A. 34:1B-242 et seq./N.J.A.C. 19:31-1 and the program's rules, applicants must employ a certain number of personnel in retained and/or new full-time jobs at a qualified business facility and make, acquire or lease a capital investment equal to or greater than defined thresholds in order to be eligible for tax credits. In addition to satisfying these statutorily-established job and capital investment requirements, applications undergo a material factor review to verify that the tax credits are material to the project advancing in New Jersey. Applications are also subject to a net benefit analysis to verify that the anticipated revenue resulting from the proposed project will be greater than the incentive amount. Credits are only certified for use annually and proportionally based on actual job performance during that year and an applicant is subject to forfeiture and recapture in event of default.

*Subject to Governor's 10 day veto period. Link to project memo will be active when full Board agenda is posted following Governor's veto period.

**Date Closed = when EDA executes a project

***Annual tax certificate will reflect actual jobs reported for that year. In no event will the amount annually issued exceed one-tenth of the total award amount (except in Camden, per statute)

(1) - Award capped annually at 90% of withholdings.

(2) - WebiMax was approved in Dec. 2013 for tax credits up to \$12.75 million over ten years related to the company's expected creation of 100 new jobs and the retention of 50 "at risk" jobs. The Board approved a modified project in Dec. 2014 to reflect the 50 retained jobs and 21 new jobs actually created (for a total of 71 full-time employees in Camden), resulting in a reduction to \$6,035,000 over ten years.
