*All fees are non-refundable.

If You Are:

An angel supported New Jersey-based technology company with minimum trailing 12 month commercial revenues of \$250,000 derived from core business activities, such as the sale of technology products.

You Can Apply For:

Growth capital through the Edison Innovation Angel Growth Fund.

In The Amount Of:

Up to \$250,000.

To Be Used For:

Key hires, product rollout, product enhancement, and marketing/sales.

Benefits:

The Edison Innovation Angel Growth Fund leverages private angel investors in support of early-stage, emerging technology businesses in a less dilutive manner than equity.

Financing Instruments:

Hybrid instrument in the form of subordinated convertible debt with warrants.

- **Subordination** - the EDA will subordinate its lien position to any current senior bank debt, file a UCC 1 filing statement on the assets of the company, and require a negative pledge and a "springing lien" on the Intellectual Property. In addition, the EDA will allow future automatic subordination of 25% of the commitment amount for new senior debt. Any amounts above this 25% require the prior written consent of the EDA.
- **Convertible** - the EDA will have the right to convert its debt to equity, in a future financing round under the same terms as any other investor in the round.
- **Warrants** - the EDA will receive warrants in consideration for the financing. The warrants will have a 10-year life and be on the EDA's standard warrant form. The amount of warrant coverage is based upon the risk profile of the company and determined at the time of commitment. The strike price on the warrants is the same per share price of the angel match funding.

Note – there are no personal guarantees required as part of this financing.

Interest Rate:

Fixed interest rate for a five-year term, based on risk profile and location of the company, ranging from 4-10%.

continued

Repayment:

Customized, based upon the stage of the company and the proforma financials, with the ability to defer principal and/or interest up to two years, with a back ended full payout of principal plus interest by maturity in year five.
