**BUSINESS EMPLOYMENT INCENTIVE PROGRAM  
ANNUAL REPORT**  
*Fiscal Year 2006*

Prepared October 2006

# **Business Employment Incentive Program (BEIP)**

## **Annual Report FY 2006**

In accordance with P.L. 2003, c.166, the New Jersey Commerce, Economic Growth and Tourism Commission, in consultation with the New Jersey Economic Development Authority (EDA), submits this report on Fiscal Year 2006 activity for the Business Employment Incentive Program (BEIP). As indicated by statute, the report includes the following: the number of BEIP agreements entered into by the state during FY 2005, and a description of each; the number of jobs created under each project; the new income tax revenue received from withholdings; the amounts awarded to each project as grants, and an update on the status of projects under each agreement.

### **Program Description**

BEIP grants, administered by the EDA and marketed aggressively by Commerce, may be granted for up to 10 years and can equal 10% to 80% of the total amount of state income taxes generated by the grantees' newly created jobs during the calendar year. To qualify, a business must demonstrate that the BEIP grant is a "material" factor for expanding or relocating jobs in New Jersey, that it is financially viable, and that it will create a minimum number of jobs. New Jersey retains the balance of new income tax revenue generated by the new jobs and is the beneficiary of growth from other ancillary revenues, such as Sales and Corporation Business Taxes, which spin off from economic development.

The EDA gives greater consideration to positions that average 1.5 times the minimum wage during the grant agreement. Qualifying businesses must maintain the project in New Jersey for at least 1.5 times the number of years of the grant. The State Treasurer must certify that the amount of the withholdings received from the business for the new employees at least equals the grant amount. Point of final purchase retail facilities are not eligible for BEIP grants.

### **Overall BEIP Activity**

From BEIP's inception in 1996 through October 2006, the EDA has executed 319 BEIP grants worth approximately \$940 million, supporting the creation of an estimated 63,284 new jobs and leveraging nearly \$10.8 billion in total public/private investment. To date, these BEIP grants have created 67,395 actual jobs.

### **FY2006 BEIP Activity**

During FY 2006, the EDA executed BEIP 71 grant agreements worth \$245.5 million over the term of the grant. *(Note that executed projects are those in which the projects have been approved by the EDA Board, and a signed agreement between the company and the EDA has been finalized.)*

### **Economic Impact**

The 71 projects are expected to create approximately 11,531 new jobs in the next decade. As of October 2006, businesses representing these 71 projects have reported the actual creation

of over 3,000 new jobs. These projects are also anticipated to invest a total of nearly \$892 million in private funds in New Jersey.

Attached is a list of all the above projects which executed a BEIP grant agreement in FY 2006, (*Exhibit A*), which includes the date of approval and execution, award percentage, grant term, estimated job creation total, jobs created to date, estimated grant award total, total project costs, project location, cities/states of origin, and new Gross Income Tax. To date, no funds have been disbursed in relation to these projects. *Note: In many cases, no new gross income tax has yet been reported to the EDA by the company, as the recipient companies are not required to do so until they have reached their minimum job creation threshold.*

Also attached is a chart (*Exhibit B*) reflecting all BEIP grants executed to date since the inception of the program, including the FY 2006 projects.

### **Proposed Modifications to BEIP**

As of the writing of this report, new regulations concerning the BEIP program are pending comment/review period under the New Jersey Register. EDA staff, with the assistance of the Office of the Attorney General and the Division of Taxation in the Department of Treasury, has recently completed a review of existing rules governing BEIP and has made several suggestions for amendatory language to ensure clarity and a transparent process for application of the rules.

A review of all the State's incentive programs is currently being led by the Office of Economic Growth in the Office of the Governor and the outcome of this review may result in recommendations to enhance New Jersey's portfolio of business retention and attraction incentives. In the interim, and as part of the EDA's consistent approach to making all of its programs more user friendly, the proposed amendments are to add clarity to the interpretation of several existing rules and to introduce several new policies. The proposed amendments include: new and amended definitions; new rules defining eligibility for smart growth bonus scoring; new rules to illustrate how the 20% cap will be calculated when a company expands beyond its Board-approved new employment commitment number; how the requirement that no BEIP grant may exceed \$50,000 per employee for all new employees over the life of the grant will be calculated and applied; how benefits will be calculated for eligible non-resident residents employed in New Jersey, when the payment of prevailing wages will be required; and the imposition of a new commitment letter fee of \$500.00.

For monthly updates on executed BEIP projects, visit: [www.njeda.com/beip\\_activity.asp](http://www.njeda.com/beip_activity.asp)

In addition, a history of the program is also attached as *Exhibit C*.

## Exhibit C

### Program History

#### 2004 Program Modifications

In 2004, the New Jersey Policy Perspective, a non-profit and nonpartisan research and educational organization, published the report “Taking Care of Business - Does it Cost Too Much?” The report analyzed BEIP to determine the program’s effectiveness and to make recommendations for improvements. In response to the report, State Treasurer John McCormac asked Rutgers University’s Edward Bloustein School of Policy and Planning to study the program and determine if the recommendations made by the report are valid and to make any other recommendations necessary to more effectively manage the program.

Based on the Rutgers’ study, the EDA Board of Directors adopted a number of modifications to the program in October 2004, including requiring BEIP recipients to maintain 80% of their statewide employment (documented at the time of their application) for the grant commitment period, and the institution of new guidelines governing additional incentives for jobs created in excess of the employment commitment.

In addition, at the recommendation of the study, the EDA will move forward with commissioning a periodic BEIP impact study, scheduled for early 2007. And, in order to increase public access to information, in 2004, EDA began posting regularly updated reports of BEIP activity on the EDA website ([www.njeda.com](http://www.njeda.com)).

In October 2004, the EDA Board of Directors also adopted additional modifications to enhance the program based on internal program review, including regulations allowing the Authority to: seek full repayment of funds if a company moves out of state; withhold, reduce or terminate payment of a grant or any portion thereof should a BEIP company default on the grant agreement, such as moving out of state, and recapture grant monies already paid to the company in the event of default.

#### 2003 Enhancements to BEIP

In September 2003, amendments were made to the BEIP Act to enhance the program, making it available to a larger range of businesses, with more targeted focus on technology-based industries.

The changes include the following:

##### *Accelerating Business Growth and Job Creation*

The program now has a lower overall job growth threshold for all applicants. Originally, a business had to create 75 new jobs to be eligible (unless they were located in a targeted municipality, in which case the threshold was 25). This threshold is now 25, regardless of location.

##### *Fostering High Tech/Biotech Industry Growth by Lowering Job Threshold to 10*

The new BEIP aims to target job growth in the high tech/biotech industries by lowering the job creation threshold to 10.

### *Targeting Specific Industries by Increasing Grant Formula Score by 5%*

An additional 5% has been added to the score for industries identified by the New Jersey Council of Economic Advisors as the cornerstone of New Jersey's economy. These industries include high tech/biotech, pharmaceuticals, financial services, transportation and logistics.

### *Encouraging Smart Growth by Increasing Grant Award by up to 30%*

BEIP applicants may be eligible for a grant award of up to 50%, equivalent to the total amount of the State income taxes withheld by the business during the calendar year for the new employees hired. The new BEIP allows an increase of up to 80% if the company utilizes Smart Growth principles. These include: locating in State Planning areas 1 and 2, an Urban Coordinating Council Municipality, "distressed" municipalities, brownfield sites, near mass transit, in a center designated by the State Planning Commission, or in an area designated by a locality as an "area in need of redevelopment;" linking with some housing production or renovation; or locating in close proximity to and working cooperatively with a public or non-profit university on research and development.

### *Streamlining Reporting Process*

Under the old BEIP, companies were required to submit a full payroll report each year, up to 10 reports for a 10- year grant. Under the enhanced BEIP, they are required to submit only three full reports, unless a company's payroll report raises questions or contains inconsistencies. The EDA will allow existing BEIP recipients the option of converting to the revised streamlined reporting process.

### *Providing a Stable Source of BEIP Funding*

The 2003 amendments gave the EDA the power to issue bonds, backed by a State contract, to fund the payment of BEIP grants in any year in which a state appropriation is not available for the grants. This change provides a more stable and flexible funding mechanism for the program and reflects the Administration's commitment to ensuring that BEIP recipients receive the funding upon which they rely. In 2003, the EDA issued bonds for a total of \$59 million for BEIP disbursement payments for FY 2004. (*Note: in FY2006, Governor Jon Corzine directed that for FY2006 and in the future, payments of BEIP disbursements be made from the General Fund, not via bond issuance.*)

The amendments also authorized the EDA to use residual BEIP withholdings to support Designated Industries Economic Growth and Development projects. In 2003, the Joint Budget Oversight Committee approved an EDA bond resolution totaling \$60 million to fund such projects. To date, the EDA had committed \$35 million of these bonds funds for the following programs: \$10 million for Springboard II Fund, providing recoverable grants to start-up life sciences and high tech companies; \$10 million for investment in the new Garden State Life Sciences Venture Fund, and \$15 million for the expansion/construction of technology commercialization centers within the newly established Innovation Zones in Camden, Newark and the greater New Brunswick area.

### *Allowing for New Recipients*

The new law also expands BEIP benefits to companies that could not take advantage of the program due to New Jersey's reciprocal agreement with Pennsylvania. Under this agreement,

New Jersey employers pay no withholding taxes in New Jersey on employees who reside in Pennsylvania. The new law allows BEIP awards to be made to companies that meet all the criteria, but would otherwise be hindered by the reciprocity agreement. This initiative allows new jobs brought by a company to the state with the BEIP incentive -- but held by a Pennsylvania resident -- to be factored into the BEIP grant to the employer. Grants for this initiative are generated by the residual income from the BEIP program statewide.
