Summary

The following paragraphs summarize the contents of each section of the new rules implementing the New Jersey Innovation Evergreen Act.

The New Jersey Economic Development Authority is proposing rules to establish a tax credit sale process, innovation ecosystem engagement platform, and investment program pursuant to the New Jersey Innovation Evergreen Act (Act), sections 20 through 34 of the New Jersey Economic Recovery Act of 2020, P.L. 2020, c. 156, as amended by P.L. 2021, c. 160 (N.J.S.A. 34:1B-288 through 34:1B-302).

The New Jersey Economic Recovery Act of 2020, P.L. 2020, c. 156, as amended by P.L.2021, c. 160, creates a package of tax incentive, financing, and grant programs that will address the ongoing economic impacts of the COVID-19 pandemic and build a stronger, fairer New Jersey economy.

The New Jersey Innovation Evergreen Act is created to foster an ecosystem of innovation and investment in early-stage businesses as a component of economic development. The Act authorizes the Authority to sell up to \$300 million of corporate tax credits through the auction of no more than \$60 million of tax credits annually for the entirety of the seven-year program. In exchange for the tax credits, the New Jersey Innovation Evergreen Fund ("Evergreen Fund" or "Fund") will receive capital from the tax credit purchasers along with strategic commitments to support early-stage businesses and the innovation ecosystem in the State. The Evergreen Fund will serve as a source of capital to co-invest with qualified professional venture capital investment firms in early-stage businesses based in New Jersey, helping to foster innovation in the State.

Any dividends and returns to the Evergreen Fund resulting from qualified investments will be reinvested from the Fund in perpetuity by design, or until the Fund capital is exhausted. Once the Fund has received total deposits from dividends and returns from qualified investments equaling \$500 million, the Authority shall pay 50 percent of any return on investment that exceeds two times the amount invested for that qualified investment to the General Fund of the State. The Authority will utilize 75 basis points of the total funding amount in the Evergreen Fund to establish and administer additional programs that support the growth of innovation in the State.

To be eligible to purchase tax credits, a potential tax credit purchaser must meet criteria including, but not limited to:

- Specify the requested amount of tax credits the potential tax credit purchaser proposes to purchase, which shall not be less than \$500,000;
- Specify the percentage amount the potential tax credit purchaser proposes to pay in exchange for the requested amount of tax credits, which shall not be less than 75 percent of the requested dollar amount of credits;
- Specify and quantify the nature and cost of its strategic commitment, including, but not limited to, mentorship hours, internship offerings, sales, and distribution pipeline access;
- Commit to serve on the New Jersey Innovation Evergreen Advisory Board for one year from the time of tax credit approval; and
- Provide a refundable deposit of 10 percent of the tax credit purchase offer, not to exceed \$500,000, at the time of application.

The Authority shall evaluate and score each completed bid application received before the application period has closed. If the amount of tax credits requested for purchase exceeds the total amount available for purchase, the Authority may prorate the amount of tax credits allocated to each tax credit purchaser. In no event shall any tax credit purchaser receive less than \$500,000 of tax credits. If the proration were to result in any tax credit bidder receiving less than \$500,000, the Authority shall award tax credits only to the highest scored bidders that would result in a proration of at least \$500,000 to each bidder. Failure by the tax credit purchaser to meet the commitments identified in its auction bid will make the bidder ineligible in future competitive auctions, unless the bidder makes a monetary payment equal to the dollar value of the unmet strategic commitment.

In order to invest the Evergreen Fund monies, the Authority shall establish an application process through which a venture firm may apply for certification as a qualified venture firm. Approval will enable the qualified venture firm to apply for funding from the Fund to make qualified investments in early-stage New Jersey businesses. To be eligible to become a qualified venture firm, a venture firm must meet various eligibility criteria, including, but not limited to:

- Not less than \$10 million in any combination of one or more of the following: net assets of the funds managed by the qualified venture firm, equity capitalization of the funds managed by the qualified venture firm, or written commitments of cash or cash equivalents on the date the determination that the certification is made;
- At least two principals or persons employed to direct the qualified investment capital, each of which shall have at least five years of significant angel investment experience or professional money

management experience in the venture capital or private equity sectors; and

- Additional weighted evaluation criteria, which may be amended by the Authority, including: the management structure of the applicant, the applicant's investment strategy, the location of the venture firm, and the applicant's proposed structure and policy of investments in qualified businesses.

The agreement with the qualified venture firm will contain language that will require the qualified venture firm to, in summary:

- Make qualified investments in an amount equal to or greater than that provided by the Fund in qualified businesses as the manager of uniquely created special purpose vehicles;
- Cause an audit of the qualified venture firm's books and accounts of the Evergreen special purpose vehicle holding qualified investments and other reporting requirements;
- Consent to specific application and reporting information disclosures in the interest of transparency; and
- Agree that the qualified venture firm will publicize its participation in the New Jersey Innovation Evergreen Fund.

If a qualified venture firm fails to continue to meet the requirements for certification as a qualified venture firm, the venture firm shall no longer be eligible to make qualified investments, but it will retain the management of the existing qualified investments for which the qualified venture firm was initially approved. Further, certain actions by the qualified venture firm, such as failure to submit the required annual reports for two consecutive years or making a material misrepresentation, may result in the disassociation of the qualified venture firm from the qualified investment and the forfeiture of any associated management fees, direct expenses, or carried interest.

Upon the approval by the Authority of applications from qualified venture firms for a qualified investment into a qualified business, the Authority shall transfer money from the Evergreen Fund for the qualified investment. The Authority shall evaluate the qualified venture firm's proposed investment and shall approve a qualified investment into a qualified business that, at a minimum, among other possible criteria:

- Is registered to do business in New Jersey with the Director of the Division of Revenue and Enterprise Services in the Department of the Treasury;
- Has principal business operations in the State;
- Is engaged in a targeted industry;
- Employs fewer than 250 full-time employees; and
- Meets the definition of a high-growth business.

Individual initial qualified investment amounts shall be considered on a ratio of no greater than one-to-one with the initial investment from the qualified venture firm active fund, but shall not be less than \$100,000 or greater than \$5,000,000, unless permitted under specified conditions. A qualified investment may be an amount of up to \$6,250,000 if the qualified business is a New Jersey university spin-off, utilizes intellectual property developed at a New Jersey university that is core to its business model, or is certified by the State as a "minority-owned business" or a "women-owned business" pursuant to P.L. 1986, c. 195 (N.J.S.A. 52:27H-21.17 et seq.). The Authority shall have a goal of 25 percent of the Fund money allocated to qualified venture firms to be reserved for investment in qualified businesses located in qualified opportunity zones. The Authority shall have the right to make a follow-on investment from the Fund into the qualified business in the same ratio as the qualified venture firm's follow-on investment relative to the qualified venture firm's initial investment. The maximum follow-on investment from the Fund into a qualified business shall not exceed the lesser of: 1. the cap on the qualified investment (\$5,000,000 or \$6,250,000) on an aggregate basis of follow-on investments in a 12-month period; 2. 15 percent of invested plus uninvested capital of the Fund; and 3. 15 percent of the total invested with the qualified venture firm by all of its investors, including investments in any Evergreen special purpose vehicles (total assets under management).

A qualified venture firm shall report the following annually after certification, within 120 days of the qualified venture firm's tax year:

- All qualified investments made during the preceding calendar year;
- The number and wages of full-time employees of each qualified business at the time the venture firm made the qualified investment

and as of the end of the qualified venture firm's tax year (or at the time of investment termination) and information relating to full-time employees located in New Jersey;

- Financials, audited by a certified public accountant, who is licensed in accordance with the Accountancy Act of 1997, P.L. 1997, c. 259 (N.J.S.A. 45:2B-42 et seq.), or the laws of another state, of the qualified venture firm active fund, and the Evergreen special purpose vehicle; and
- Any other information the Authority requires to ascertain the impact of the program on the economy of the State.

During the qualified business compliance period, the qualified business must maintain a place of business in New Jersey and must maintain one of the following: its principal business operations in New Jersey (which is defined as two tests in relation to the employee's residency), at least 50 percent of its full-time employees filling a position in New Jersey, or at least 50 percent of wages paid to employees filling a full-time position in New Jersey. If qualified business fails to do so for two consecutive years, the Authority may exercise its right of redemption and require the qualified business to redeem the Evergreen Fund investment for an amount equal to the greater of the qualified investment or the fair market value of the qualified investment at the time of the redemption demand. If the qualified venture firm or any other investor offers to purchase such qualified investment for the same amount as set forth above, the Authority may accept such purchase instead of redemption.

Social Impact

The specially adopted and concurrently proposed new rules, which establish the New Jersey Innovation Evergreen Fund and encourage venture capital investment into early-stage businesses in New Jersey, are intended to have a positive social impact.

The Fund is a key component of the State's broader economic development plan. Investments from the Fund balances economic impact; for example, accelerating the growth of venture capital investment in New Jersey, with a focus on increasing equity and opportunity for all. This strategy is clearly demonstrated in the New Jersey Economic Recovery Act of 2020's overall approach, which establishes, or amends, 15 different programs with varying development objectives. The Act is primarily focused on providing resources to help foster innovation in New Jersey by increasing the availability of venture capital to early-stage businesses and facilitating a collaborative environment between these early-stage businesses and existing corporations operating in New Jersey. Similar to other programs, the program established by the Act and this rulemaking also focuses on maintaining employment in New Jersey.

Fostering innovation in New Jersey helps create an environment in which innovative ideas in high-wage, high-growth sectors can be developed and scaled into significant businesses. These businesses will become future economic drivers for New Jersey, contributing tax revenues and employing New Jersey residents. The New Jersey Innovation Evergreen Fund also supports investment in diverse entrepreneurs, reflective of New Jersey's rich cultural makeup.

Economic Impact

The specially adopted and concurrently proposed new rules are intended to bolster the State's economy by providing resources to drive investments into high-wage, high-growth innovation sectors that best support New Jersey's long-term economic future. The New Jersey Innovation Evergreen Fund will grow the availability of venture capital investment in New Jersey, which is the key resource needed to commercialize, test, and scale research and ideas that can positively impact New Jersey's economy. The resulting investments from the Fund into early-stage New Jersey businesses will support their continued growth, which will lead to economic benefits in the form of tax revenues and employment opportunities in high-wage, high-skill industries. Additionally, the New Jersey Innovation Evergreen Fund will provide resources, beyond financial resources, for engagement and interaction between existing corporations and early-stage businesses.

The program includes administrative fees of 75 basis points assessed from the Evergreen Fund, annually, to support programming that

promotes the innovation economy in the State. Investment management fees and expenses may be charged to the Evergreen Fund to compensate and incentivize venture firms or administer a business. No fees will be charged to program applicants.

Federal Standards Statement

A Federal standards analysis is not required because the specially adopted and concurrently proposed new rules are not subject to any Federal requirements or standards.

Jobs Impact

As the core focus of this program is encouraging investment in high-wage, high-growth sectors, this program will result in job creation driven by business growth enabled through Fund investments in early-stage businesses. This includes the creation of high-skill, high-wage jobs needed to perform specific technical functions. Prior to implementation, it is not possible to accurately forecast the number of jobs that will be supported by the New Jersey Innovation Evergreen Fund.

Agriculture Industry Impact

The specially adopted and concurrently proposed new rules may have a positive impact on the agricultural industry, which includes aquaculture and fisheries, through the targeted inclusion of the non-retail food and beverages industry. Specifically, an investment from the New Jersey Innovation Evergreen Fund may be made within the agricultural industry through involvement with research and development activities that advance agricultural food innovation technologies. As a result, new or advanced technologies may benefit the State's agricultural industry operations for the production, processing, preservation, and distribution of raw agricultural goods into consumer food products.

Regulatory Flexibility Analysis

The specially adopted and concurrently proposed new rules may impose reporting, recordkeeping, or other compliance requirements on small businesses, as defined in the Regulatory Flexibility Act, N.J.S.A. 52:14B-16 et seq.; however, any costs will be minimal and fully offset by the amount of equity infusion received by the businesses.

Qualified venture capital firms will be required to provide verification at least annually to demonstrate minimal compliance with qualification requirements and participation within incentive areas. Qualified investments will be required to put forward CPA-certified job logs, which may be provided through the qualified venture firm or directly to provide maximum flexibility in ensuring compliance. The NJEDA shall prepare a report to the Governor and the Legislature on the implementation of the program every two years.

Housing Affordability Impact Analysis

The specially adopted and concurrently proposed new rules will not impact the amount or cost of housing units, including multi-family rental housing and for-sale housing in the State. The specially adopted and concurrently proposed new rules implement the New Jersey Innovation Evergreen Act, which authorizes the sale of tax credits, the proceeds of which will be used to capitalize the New Jersey Innovation Evergreen Fund that will invest in early-stage New Jersey businesses.

Smart Growth Development Impact Analysis

The specially adopted and concurrently proposed new rules will not impact the number of housing units or result in any increase or decrease in the average cost of housing in Planning Areas 1 or 2, or within designated centers, under the State Development and Redevelopment Plan. The specially adopted and concurrently proposed new rules implement the New Jersey Innovation Evergreen Fund which authorizes the sale of tax credits, the proceeds of which will be used to capitalize the Fund that will invest in early-stage New Jersey businesses.

Racial and Ethnic Community Criminal Justice and Public Safety Impact

The specially adopted and concurrently proposed new rules will not have an impact on pretrial detention, sentencing, probation, or parole policies concerning juveniles and adults in the State. Accordingly, no further analysis is required.

Full text of the specially adopted and concurrently proposed new rules follows:

Such circumstances include, but are not limited to, the unavailability of any of the qualified certified public accountants to timely complete the certification or that none of the qualified certified public accountants are independent to the qualified venture firm.

(c) A qualified venture firm shall, as required at the discretion of the Authority, submit to the Authority satisfactory evidence supporting the information detailed in the annual report.

(d) Absent extenuating circumstances or prior written consent by the Authority, if a qualified venture firm fails to comply with the reporting requirements of this section, the Authority shall withhold the management fees and direct expenses due to such qualified venture firm or an affiliate of the qualified venture firm for any Evergreen special purpose vehicle managed by the qualified venture firm or affiliate. If the qualified venture firm submits the complete annual report within 120 days from the date the annual report was due, the Authority shall pay the management fees and direct expenses withheld and resume payment of management fees and direct expenses. If the qualified venture firm fails to comply with the reporting requirements after the additional 120 days, the qualified venture firm shall forfeit all management fees and direct expenses due for a period of a year.

(e) If a qualified venture firm is not in compliance with the reporting requirements of this section at the time that any distribution is made by a qualified business to the Evergreen special purpose vehicle holding a qualified investment, whether as a result of a sale or public registration of securities of the qualified business or for any other reason, no distribution of cash or equity for carried interest shall be made to the qualified venture firm or affiliate, provided that if the qualified venture firm comes into compliance with such reporting requirements within 120 days of the date of such distribution, the Evergreen special purpose vehicle shall make the distribution for carried interest to the qualified venture firm or affiliate.

19:31-25.10 Recapture, decertification, and redemption

(a) Absent extenuating circumstances or written consent by the Authority, if a tax credit purchaser fails to fund at least 80 percent of any component of its strategic commitment, the Authority shall require the tax credit purchaser to pay, to the Fund, the amount equal to the difference between the value of such strategic commitment component, as set forth in the tax credit purchaser contract, and the actual amount funded by the tax credit purchaser.

(b) If, at any time, the Authority determines that a tax credit purchaser made a material misrepresentation on the tax credit purchaser's tax credit bid application or any submissions to the Authority under this program, the Authority may recapture any or all of all tax credits awarded under the program, which shall be in addition to any other remedies in the incentive award agreement and any criminal or civil penalties to which the tax credit purchaser and the respective officer may be subject. Any such recapture amount may include interest on the recapture amount, at a rate equal to the statutory rate for tax deficiencies, plus any statutory penalties, and all costs incurred by the Authority and the Division of Taxation in the Department of the Treasury in connection with the pursuit of the recapture amount, including, but not limited to, counsel fees, court costs, and other costs of collection. The Authority shall confer with the Division of Taxation to determine the recapture amount.

(c) The Authority shall review each qualified venture firm's annual report for the disqualifying criteria set forth at N.J.A.C. 19:31-25.7(d), or other reasonable industry-accepted standards, as determined by the Authority. The Authority shall publish any such standards on its website. Upon such review, if the qualified venture firm does not satisfy the criteria or standards, the Authority shall decertify a qualified venture firm. If the annual report does not demonstrate best efforts to comply with the diversity policies or plans submitted pursuant to N.J.A.C. 19:31-25.7(b)8 or, for a qualified venture firm that proposed to dedicate a greater portion of qualified investments into qualified businesses located within incentive areas, best efforts to achieve such greater portion of qualified investments compared to the investment information provided pursuant to N.J.A.C. 19:31-25.7(b)17, then the Authority shall reduce the qualified venture firm's evaluation score by the weight for such criteria. If the reduced evaluation score is below the minimum, the Authority shall decertify the qualified venture firm. Decertification shall not affect any previously made qualified investment or the Fund's commitment to make a follow-on investment in a qualified business.

(d) If a qualified venture firm fails to timely submit the completed annual report pursuant to N.J.A.C. 19:31-25.9 for two consecutive years, the Authority shall decertify the qualified venture firm and may remove the qualified venture firm from the Evergreen special purpose vehicle or require the qualified venture firm to terminate the Evergreen special purpose vehicle.

(e) If a qualified venture firm fails to comply with the requirements of the qualified venture firm agreement or Evergreen special purpose vehicle governing agreement other than the failure to submit a complete annual report, or if the qualified venture firm or affiliate of the qualified venture firm is removed from the qualified venture firm active fund, the Authority may withhold or cease paying management fees and direct expenses, decertify the qualified venture firm, remove the qualified venture firm from the Evergreen special purpose vehicle, or require the qualified venture firm to terminate the Evergreen special purpose vehicle.

(f) If, at any time, the Authority determines that a qualified venture firm made a material misrepresentation on the qualified venture firm's application for certification, application for a qualified investment, annual report, or any submissions to the Authority under this program, the Authority shall cease paying management fees and direct expenses. The Authority shall decertify the qualified venture firm and may demand repayment of all management fees and direct expenses previously paid, remove the qualified venture firm from the Evergreen special purpose vehicle, or require the qualified venture firm to terminate the Evergreen special purpose vehicle. The actions by the Authority pursuant to this subsection shall be in addition to any other remedies in the qualified venture firm agreement or the Evergreen special purpose vehicle governing agreement and any criminal or civil penalties to which the qualified venture firm and the respective officer may be subject.

(g) If an Evergreen special purpose vehicle is terminated pursuant to (d), (e), or (f) above, the qualified venture firm shall transfer the shares of stock to the Authority. The Authority may, at its discretion, accept payment of an amount equal to the greater of the qualified investment and all follow-on investments or the fair market value of the qualified investment at the time of the demand. Upon such termination, the Authority may require the qualified venture firm to forfeit any carried interest.

(h) If a qualified business fails to support its business operations in this State as set forth at N.J.A.C. 19:31-25.7(g)4i, or fails to provide the necessary documentation to demonstrate its compliance, during two consecutive years during the qualified business compliance period, the Authority may require the qualified business to redeem the shares of stock purchased with the qualified investment and any follow-on investment for an amount equal to the greater of the aggregate amount of the qualified investment and follow-on investments or the fair market value of the shares of stock at the time of the redemption demand. The Authority may, at its discretion, accept the offer to purchase the shares of stock by the qualified venture firm or any other investor in lieu of redemption.

(i) If a qualified business fails to comply with any requirement under this program other than the failure set forth at (h) above, the Authority may determine not to make any follow-on investments or may demand a redemption as set forth at (h) above.

(j) If, at any time, the Authority determines that a qualified business made a material misrepresentation on the qualified venture firm's application for certification, application for a qualified investment, annual report, or any submissions to the Authority under this program, the Authority may determine not to make any follow-on investments or may demand a redemption as set forth at (h) above. The actions by the Authority pursuant to this subsection shall be in addition to any other remedies in the incentive award agreement and any criminal or civil penalties to which the qualified business and the respective officer may be subject.

(k) In determining whether to require the termination of an Evergreen special purpose vehicle or the redemption of the shares of stock of a qualified business, the Authority may consider if retaining the Evergreen special purpose vehicle or the shares of stock of the qualified business furthers the purposes of the program, including, but not limited to, the likelihood of an increase in value of the shares of stock and the continued employment of full-time employees filling a position in New Jersey.

19:31-25.11 Affirmative action and prevailing wage

The Authority's affirmative action requirements at N.J.S.A. 34:1B-5.4 and N.J.A.C. 19:30-3 and the prevailing wage requirements at N.J.S.A. 34:1B-5.1 and N.J.A.C. 19:30-3.2 shall apply only to the management fees and direct expenses received by the qualified venture firm.

19:31-25.12 Fees

(a) A tax credit purchaser, venture firm, or business shall pay to the Authority the full amount of direct costs of due diligence, including, but not limited to, debarment/disqualification reviews or other analyses by a third party retained by the Authority, if the Authority deems such retention to be necessary.

(b) No fees shall be charged from tax credit purchasers, venture firms, or businesses.

19:31-25.13 New Jersey Innovation Evergreen Advisory Board

(a) The New Jersey Innovation Evergreen Advisory Board is established in, but not of, the Authority for the purposes of providing guidance and networking opportunities to qualified businesses. The members of the New Jersey Innovation Evergreen Advisory Board shall serve in a voluntary capacity, to be appointed through a process to be determined by the Chief Executive Officer of the Authority from among tax credit purchasers and other strategic partners identified by the Chief Executive Officer, to support the State's innovation ecosystem. The terms of the voluntary members so appointed, after the initial appointments, shall be one year, and each member may be reappointed thereafter if the tax credit purchaser purchases tax credits in the following year's tax credit auction or if the tax credit purchaser consents.

(b) The members of the New Jersey Innovation Evergreen Advisory Board shall also be required to attend at least the majority of meetings and events that the Authority schedules each year for participation by the members.

19:31-25.14 Appeal process

(a) The Authority Board's action shall be effective 10 business days after the Governor's receipt of the minutes, provided neither an early approval nor veto has been issued.

(b) An applicant may appeal the Authority Board's action by submitting, in writing, to the Authority, within 20 calendar days from the effective date of the Authority Board's action, an explanation as to how the applicant has met the program criteria. Such appeals are not contested cases subject to the requirements of the Administrative Procedure Act, N.J.S.A. 52:14B-1 et seq., and 52:14F-1 et seq., or the Uniform Administrative Procedure Rules, N.J.A.C. 1:1.

(c) Appeals that are timely submitted shall be handled by the Authority as follows:

1. The Chief Executive Officer shall designate an employee of the Authority to serve as a hearing officer for the appeal and to make a recommendation on the merits of the appeal to the Authority Board. The hearing officer shall perform a review of the written record and may require an in-person hearing. The hearing officer has sole discretion to determine if an in-person hearing is necessary to reach an informed decision on the appeal. The Authority may consider new evidence or information that would demonstrate that the applicant meets all of the application criteria, provided that if the Authority decision was based on a competitive process, the Authority cannot consider any new evidence or information about the application other than evidence or information that would demonstrate that the applicant met all of the application criteria by the application deadline.

2. Following completion of the record review and/or in-person hearing, as applicable, the hearing officer shall issue a written report to the Authority Board containing the hearing officer's finding(s) and recommendation(s) on the merits of the appeal. The hearing officer's report shall be advisory in nature. After reviewing the report, the Chief Executive Officer of the Authority may also include a recommendation to the written report of the hearing officer. The applicant shall receive a copy of the written report of the hearing officer, which shall include the recommendation of the Chief Executive Officer, if any, and shall have the opportunity to file written comments and exceptions to the hearing officer's report within five business days from receipt of such report.

3. The Authority Board shall consider the hearing officer's report, the recommendation of the Chief Executive Officer, if any, and any written comments and exceptions timely submitted by the applicant. Based on that review, the Authority Board shall issue a final decision on the appeal.

4. Final decisions rendered by the Authority Board shall be appealable to the Superior Court of New Jersey, Appellate Division, in accordance with the New Jersey Rules of Court.

19:31-25.15 Reports on implementation of the program

Beginning in 2022, and every two years thereafter, the Authority shall prepare a report on the implementation of the program, and submit the report to the Governor, and, pursuant to section 2 at P.L. 1991, c. 164 (N.J.S.A. 52:14-19.1), to the Legislature. Each biennial report required pursuant to this section shall include the names and locations of qualified businesses receiving capital, including whether they are located in an opportunity zone; the amount of each qualified investment; a report by a certified public accountant, who is licensed in accordance with the Accountancy Act of 1997, P.L. 1997, c. 259 (N.J.S.A. 45:2B-42 et seq.), or licensed in accordance with the laws of another state, of the consolidated performance of the Fund; the cumulative amount of capital committed by tax credit purchasers; the rate and amount of management fees and carried interest charged by each qualified venture firm, including

performance-based earnings and carried interest; the classification of each qualified business, according to the targeted industry and the size of the qualified business; the State's return on investment; the total number of jobs created in the State by the qualified business after the qualified investment; the average wages paid for the jobs; and any other metrics the Authority determines are relevant based upon national best practices.

19:31-25.16 Severability

If any section, subsection, provision, clause, or portion of this subchapter is adjudged to be unconstitutional or invalid by a court of competent jurisdiction, the remaining portions of this subchapter shall not be affected thereby.
