1. INTENT/SUMMARY

The New Jersey Economic Development Authority ("NJEDA" or "the Authority") seeks submissions from venture capital manager(s) that have demonstrated competency, capacity, and skill in managing early-stage investment strategies into start-up and early-stage companies in New Jersey, to manage a possible Black and Latino Seed Fund (the "Fund") for investment into innovative, Black and Latino owned businesses. This notice, and subsequently the possible Black and Latino Seed Fund, defines these businesses as "NJ-headquartered businesses where at least 51% of its ownership interest is held by Black or Latino entrepreneurs". A "Black Entrepreneur" is an entrepreneur with racial origins in any black racial groups in Africa. Similarly, a "Latino Entrepreneur" is an entrepreneur of Spanish or Portuguese heritage, with origins in Mexico, South or Central America, or the Caribbean Islands, regardless of race.

The New Jersey Economic Recovery Act of 2020, P.L. 2020, c. 156, defined "targeted industries" for various new State tax credit programs as certain innovative industries. The Authority further clarified the definition for the Emerge Program at N.J.A.C. 19:31-22.2. The Authority is using the "targeted industries" definition from the Emerge Program, available on the NJEDA's website (<https://www.njeda.com/wp-content/uploads/2021/05/Appendix-C-Targeted-Industries-Definitions.pdf>) to define innovative businesses for purposes of the Fund: "any industry identified from time to time by the Authority that shall initially include advanced transportation and logistics, advanced manufacturing, aviation, autonomous vehicle and zero-emission vehicle research or development, clean energy, life sciences, hemp processing, information and high technology, finance and insurance, professional services, film and digital media, non-final point of sale retail food and beverage businesses, including food innovation, and other innovative industries that disrupt current technologies or business models.

A business shall be considered to be in a targeted industry, and thus innovative, if the primary activity undertaken by the employees are in a targeted industry, or if the business is engaged primarily in a targeted industry. The Authority may consider other innovative industries that disrupts current technologies or business models, by assessing factors, including, but not limited to, whether the businesses in the industry are offering products or services that significantly improve current market offerings on the basis of price or other performance levels, whether the new industry creates opportunities for new firms to enter and redefine the supply chain or value chain of an industry, or whether the industry utilizes new technology or business processes that allow New Jersey-based firms to collect a share of revenues that were traditionally only available to companies in other geographies."

This Notice is not a guarantee that the Fund will be established. The establishment of the Fund, and any determination of the amount of the Authority's investment, is contingent upon the results and the Authority's review, in its sole discretion, of the disparity study being

conducted by the Authority into its equity investments (“Equity Investment Disparity Study”).

Subject to the Equity Investment Disparity Study, the Authority may commit up to \$20 million to one or more venture capital manager(s) from the funds appropriated to the Authority by the State of New Jersey (“NJ or “State”) in 2022 and 2023 State budget appropriations to form the Fund. The objective of this Notice is to identify a manager or managers whose expertise best meets the purpose of the Fund. The NJEDA reserves the right to reject any and all submissions at its discretion, including any and all submissions that meet the minimum score.

The general *scope of services* requires that the successful manager fully invest and manage the Fund on NJEDA’s behalf. Management of the fund will broadly entail, but not be limited to:

- Creating the Fund special purpose vehicle, if applicable
- Contributing to the capital raise by utilizing established relationships to draw additional capital commitment to the Fund
- Strict adherence to fund limited partnership agreement (LPA) and side letter compliance requirements
- Developing and maintaining a pipeline of prospective, NJ-based, Innovative, Black and Latino-owned companies in need of seed or early-stage capital (deal sourcing)
- Responsibly investing the capital into qualifying businesses in line with the Fund strategy as agreed upon at time of execution
- Managing the Fund’s day-to-day operation and reporting requirements
- Setting and managing annual budgets
- Managing employees, back-office, vendors, investor relations
- Responding to non-deal requests from the Authority related to the purposes of the Fund, such as market intelligence reports, and other ad hoc requests that the NJEDA may generally require
- Developing, managing, and maintaining necessary due diligence measures
- Monitoring, managing, and reporting on portfolio companies
- Working closely to support portfolio chief executive officers to ensure value creation and provide a pipeline of services to the portfolio companies

To be considered, respondents must fully respond to the Due Diligence Questionnaire in Appendix A and must include the required exhibits listed in Appendix B. The evaluation process is outlined in Section 5.

2. BACKGROUND

Since 1999, the Authority has committed more than \$64.5M to 20 venture capital funds. These commitments have resulted in direct-investments into 114 NJ-based, early-stage companies, yielding over 6,500 jobs in New Jersey and a private leverage multiple in excess of 64.7x.

As part of his proposed State Fiscal Year 2022 budget, Governor Murphy proposed a \$10 million appropriation for the Fund. The Authority is responsible for the implementation of the Fund, and the purpose of the Fund is to increase access to capital for Black and Latino owned innovation businesses. An additional \$10 million was appropriated to the Authority for the Fund in State Fiscal

Year 2023. With a maximum amount of \$20 million, the Authority is undertaking an Equity Investment disparity study to determine the need to deepen the Authority's early-stage investments into Black and Latino owned businesses. The successful manager(s) will utilize the amount determined by the Authority based on the Equity Investment disparity study, up to the maximum of \$20 million, to make seed-stage investments into New Jersey Black and Latino owned innovation businesses.

The State and the Authority have developed various products as further inducement to encourage engagement from venture managers. For example, the State recently revised the NJ Angel Tax Credit (ATC) Program to incentivize Limited Partners' (LPs) commitments to NJ-dedicated venture capital funds. The recent update to the ATC Program allows venture capital fund LPs, whose General Partners (GP) commit to investing at least 50% of the fund into New Jersey-based businesses, to receive NJ corporate business or gross income tax credits up to 20% of their commitment to the fund. The tax credit amount is increased by 5% if the venture capital fund commits to invest at least 50% to diverse entrepreneurs (defined as State certified minority- or women-owned businesses). Subject to New Jersey tax law, the amount of the tax credit otherwise allowable against the LP's tax, which cannot be applied for the tax credit approval year against the tax credit otherwise due may be treated as an overpayment, or carried forward if a corporate business tax. **This summary is provided as a courtesy and is not comprehensive. Respondents must consult with their own consultants, advisors, and attorneys to determine applicability of the ATC Program.**

The following deliverables are the *minimum* requirements of the fund manager(s)'s performance against the resulting investment contract:

If the selected Fund Manager fails to provide the deliverables required in the investment contract with NJEDA, they will be granted a 90-day grace period in which to cure the shortfall(s), after which point management fees will be withheld until deficiencies are corrected as outlined in the award agreement.
